# WELCOME

---

Our company specializes in designer and functional outdoor furnitures. The entire production process takes place in Poland where we have 30 years of experience in precise metal processing and many years of sewing experience. Our mission is to create Polish modern design of durable and harmonious forms enriched with innovative solutions. We believe that being surrounded by beauty every day shapes our well-being.

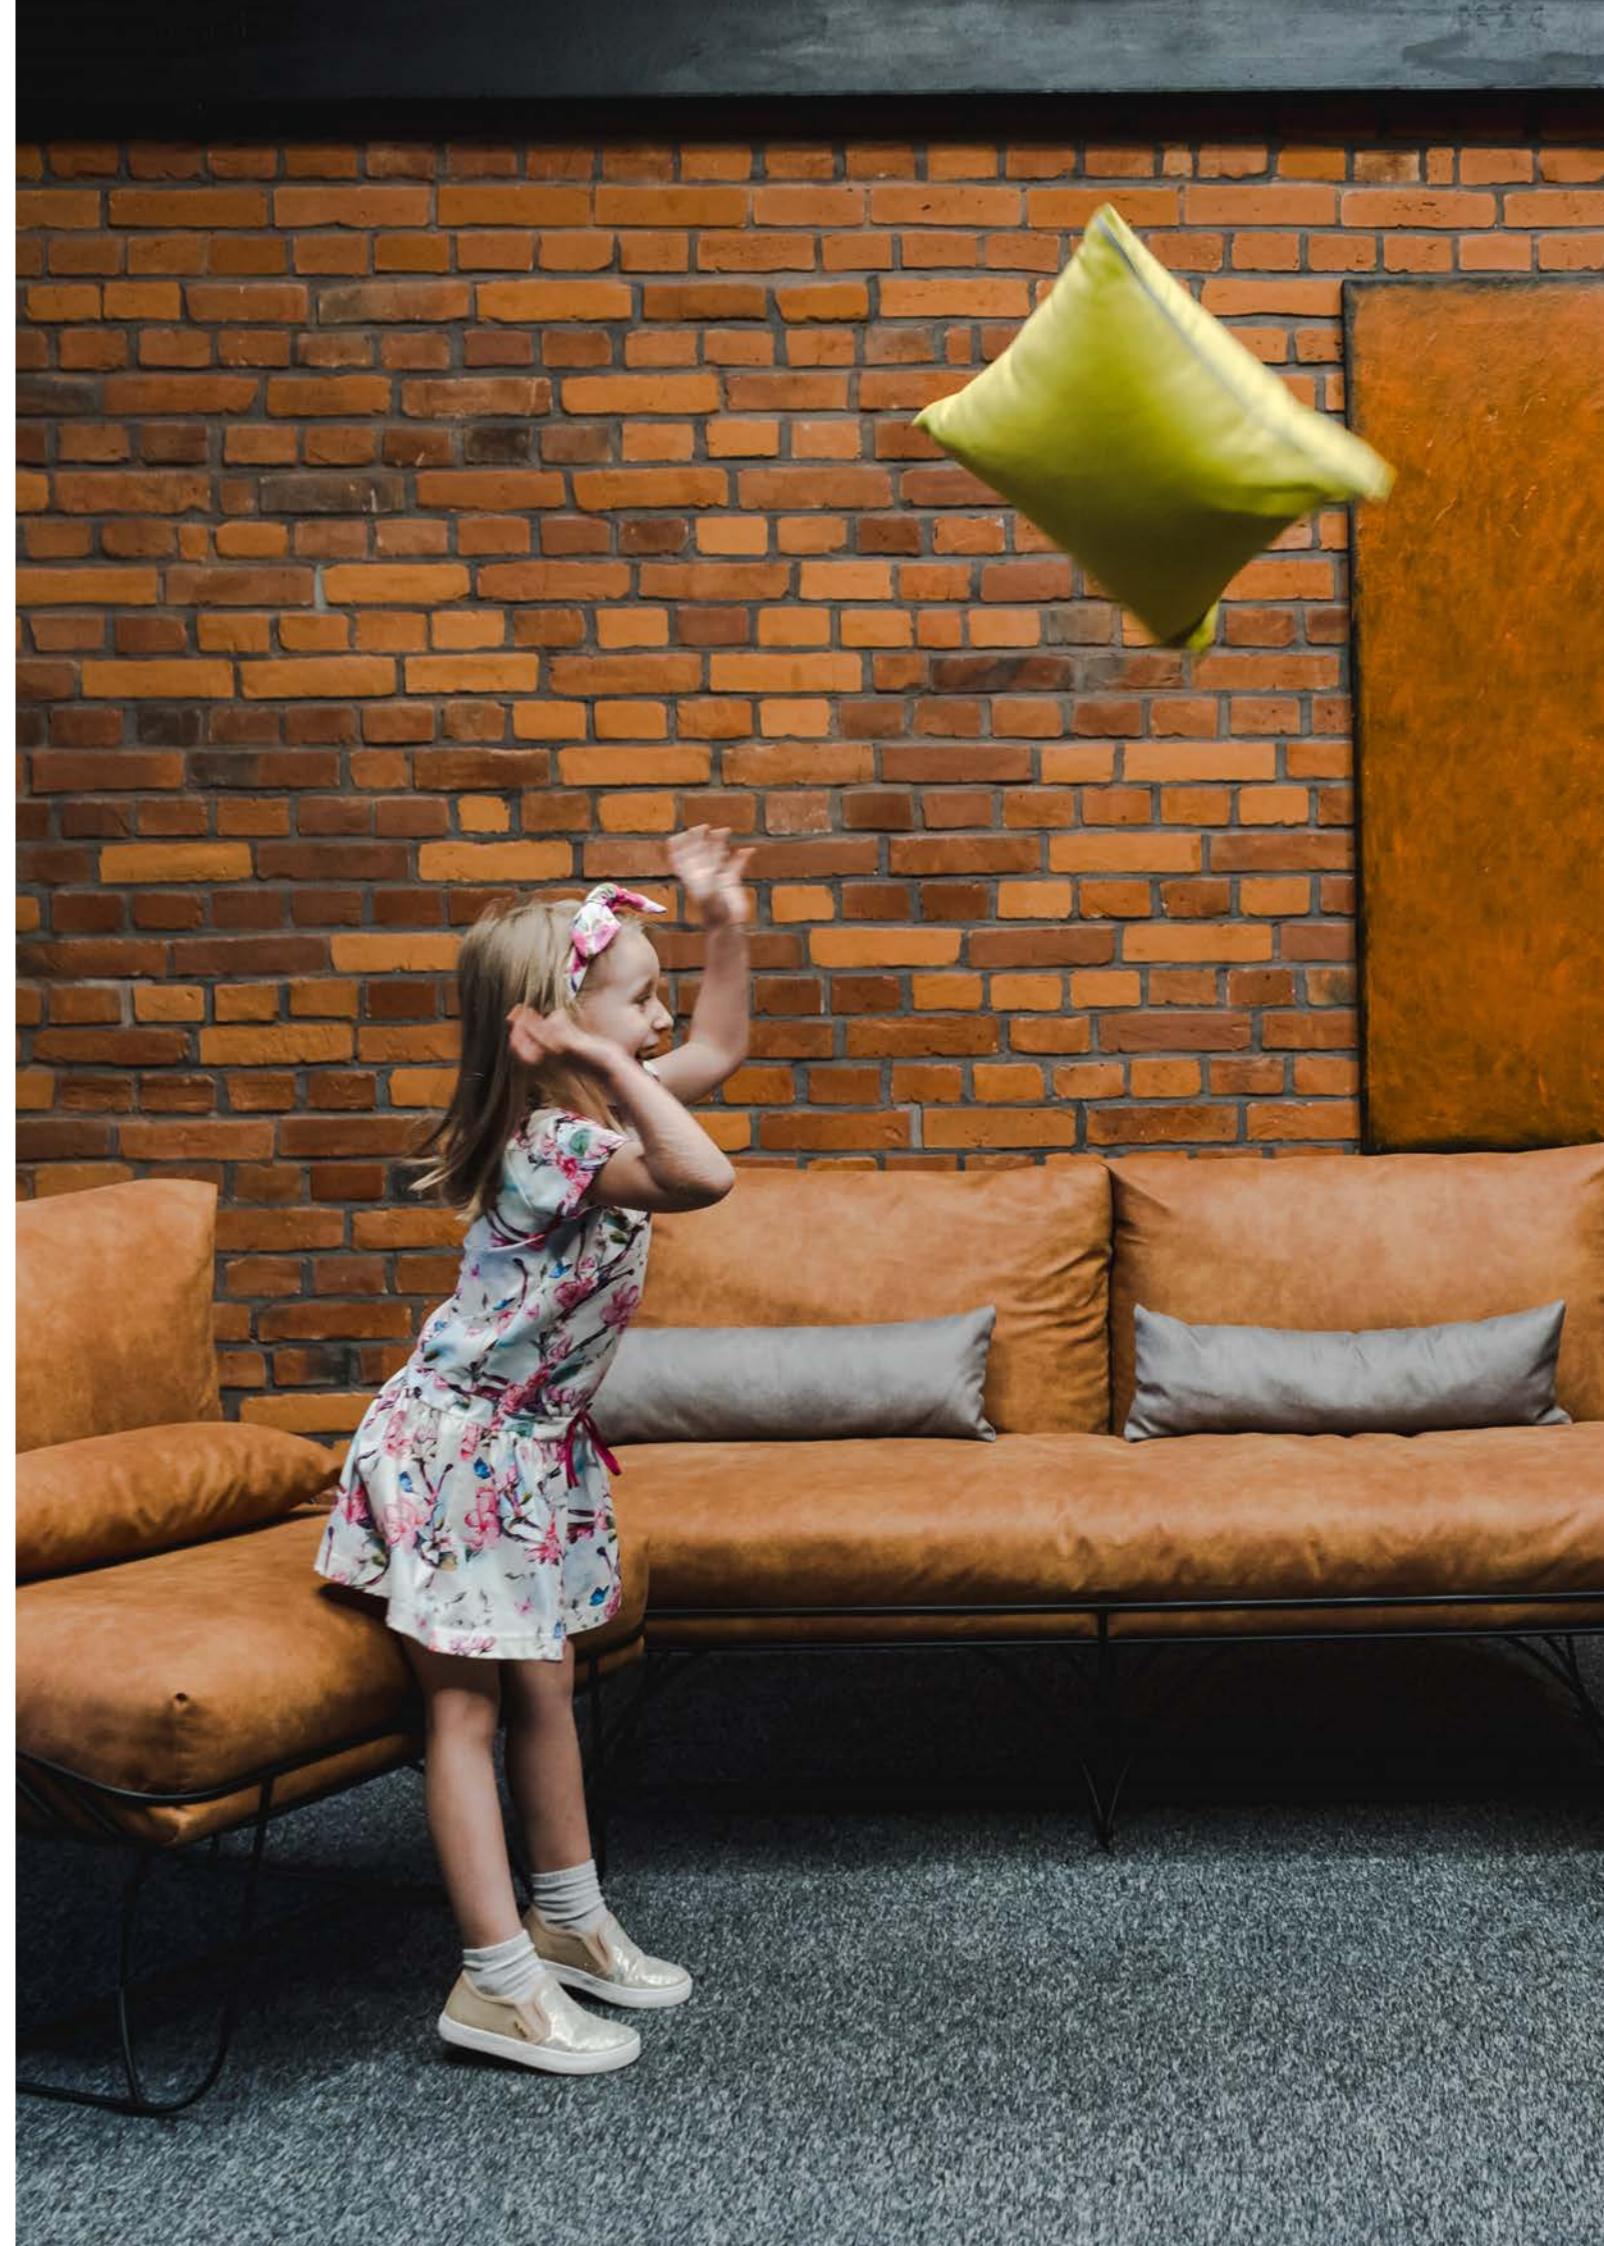

Our design studio and machine park allow us to carry out both mass and individual production. At our company we run production from raw material to finished product. We are a family company with a multi-generational tradition of manufacturing beautiful and functional products, with scientific and design achievements gained at the Krakow AGH University of Science and Technology and the Academy of Fine Arts.

I invite you to view our projects

## FIBONACCI COLLECTION

PRECISION AND ELEGANCE

The Fibonacci collection is a combination of comfortable relaxation and top-class contemporary design using natural curves and beautiful lines of galvanized steel.

Discovered by the mathematician Leonardo Fibonacci, the "Golden Angle" of approximately 137.5 degrees has become our inspiration to create a unique collection.

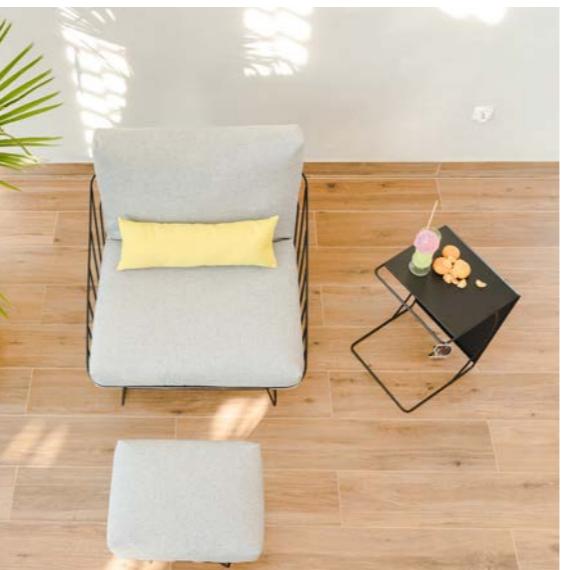

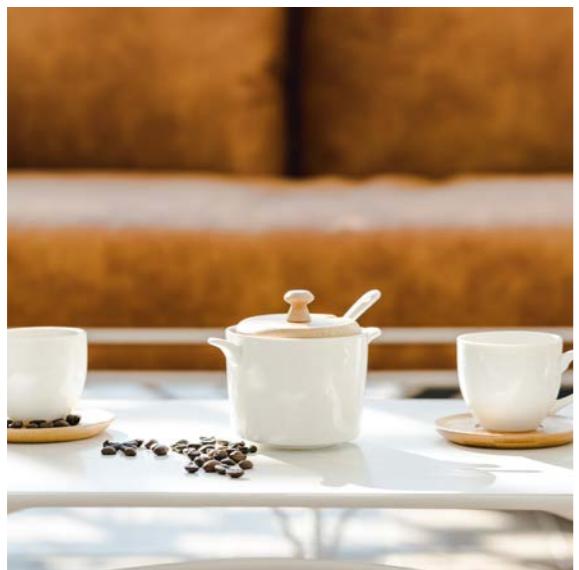

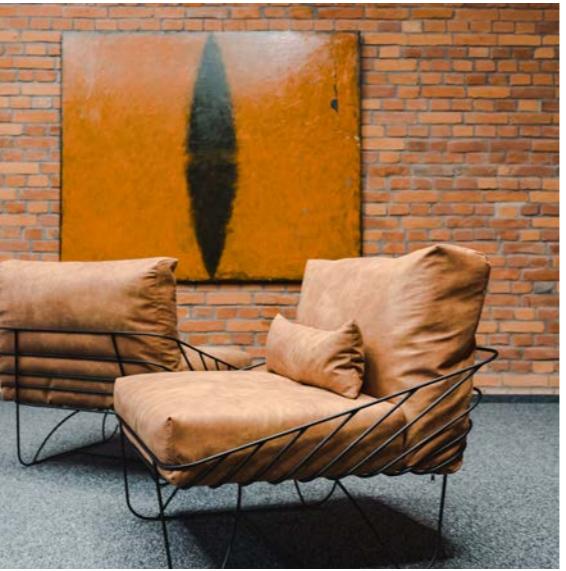

# IN & OUTDOOR FIBONACCI

Modern form of the furniture fits perfectly in interiors where it can serve as a relaxing antidote to everyday stress, and in the garden where it stands out with its comfortable, soft cushions, combined with a stable structure made of steel rods protected by zinc coating. The dual-purpose coffee table makes it possible to serve coffee comfortably and to change it into an auxiliary table for working with a laptop or a book.

Type	Length [cm]	Height [cm]	Width [cm]
Sofa	156	56	82
Armchair	84	56	82
Table	60	35	40
Footrest	36	32	45

## HAMILTON COLLECTION

MODULAR FREEDOM

An ultra-comfortable aluminum collection that was designed for quiet family relaxation. It is characterized by a modular design, thanks to which you can select and combine individual elements of the collection, so that it fits perfectly into the arranged space. The collection brings together timeless design and functionality and comfort.

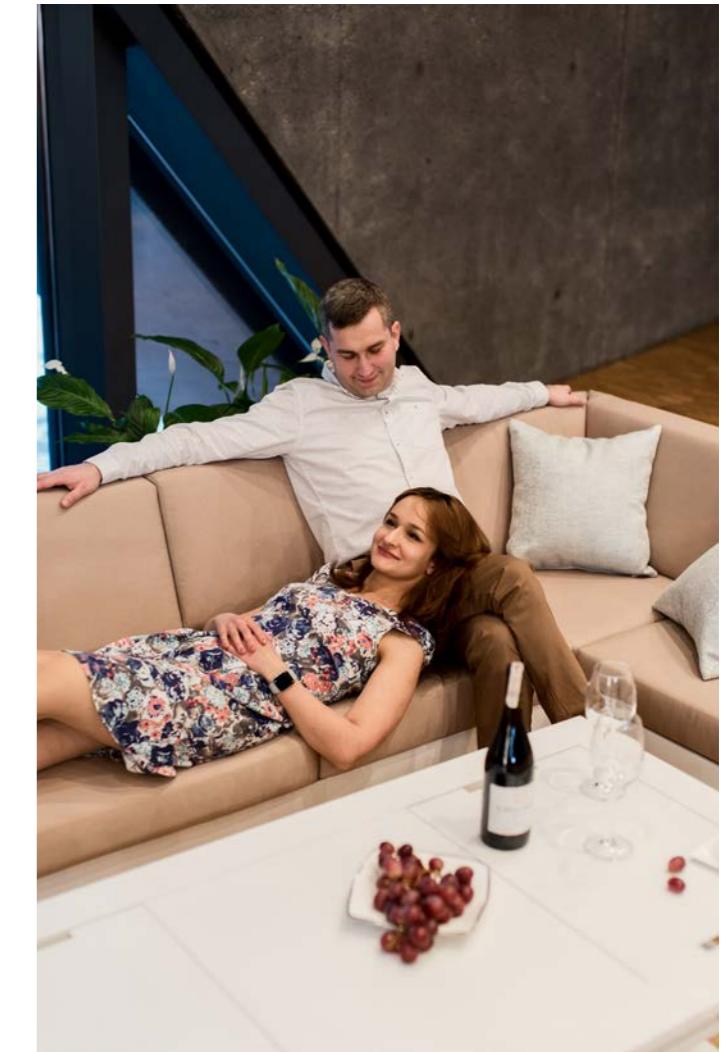

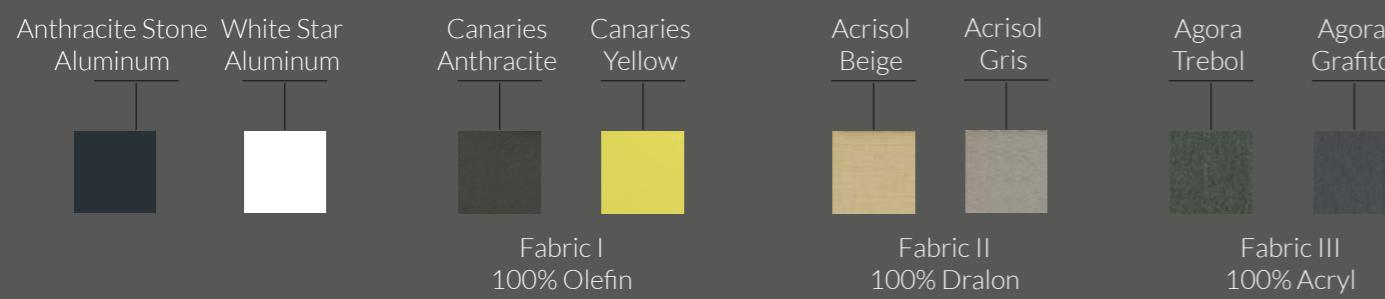

Hamilton is a combination of the highest quality materials: lightweight, corrosion-resistant aluminum and multi-layer, weather-resistant cushions. The carefully selected materials ensure that the set with its timeless design, in an unchanged state, can serve for years.

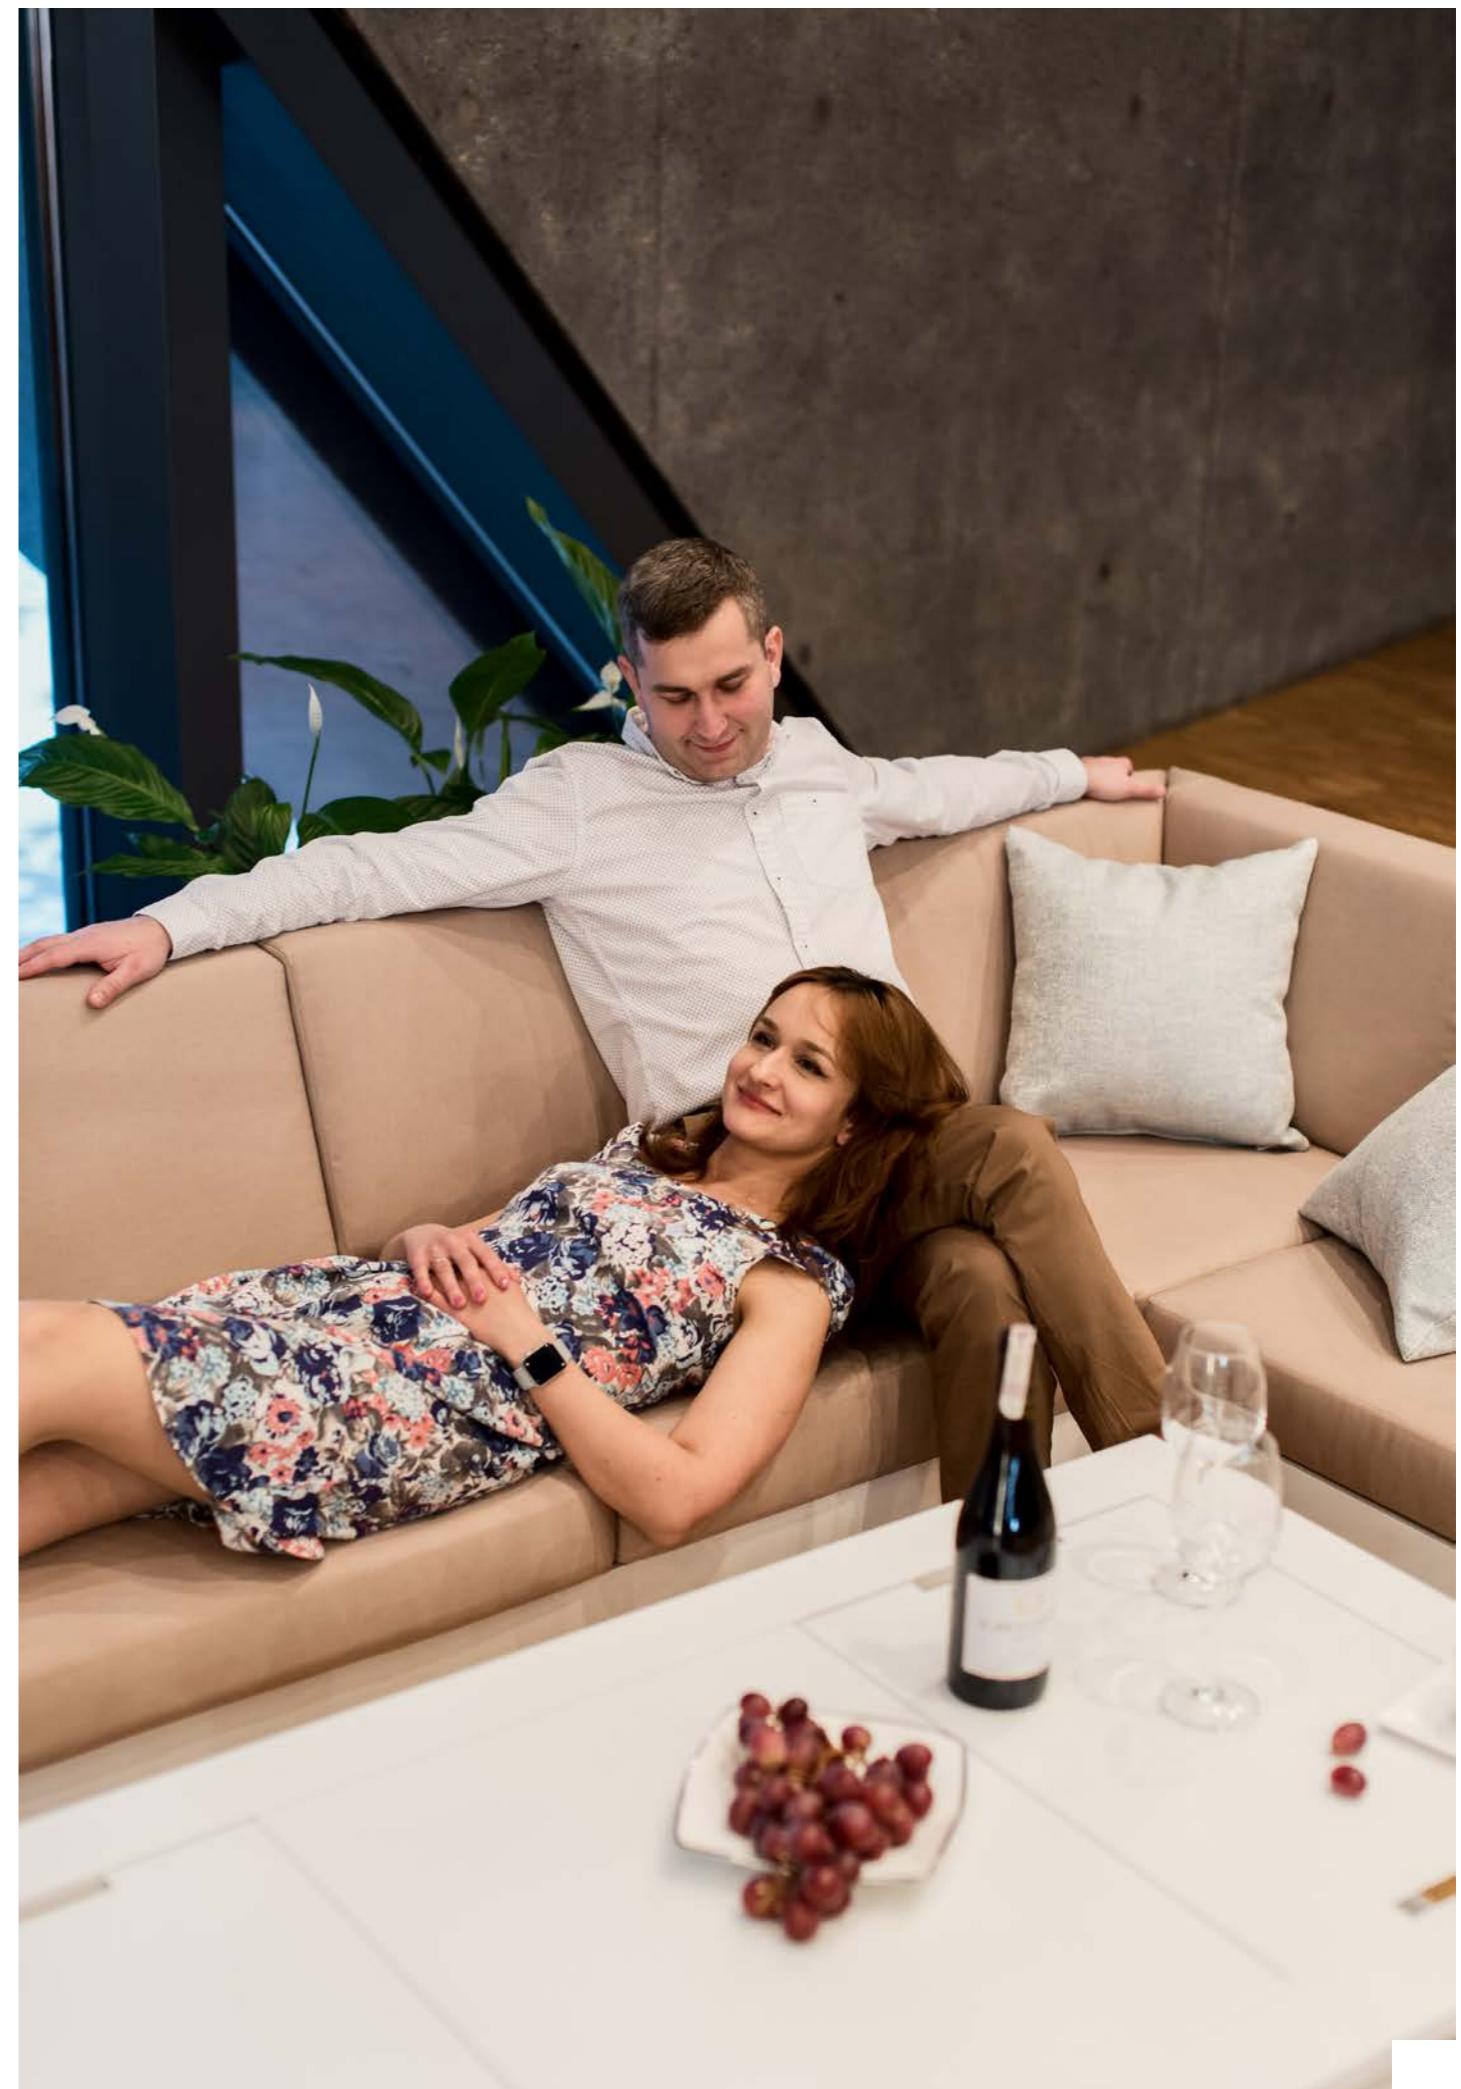

# IN & OUTDOOR HAMILTON

William Donald Hamilton worked on the „modular brain” hypothesis that the brain consists of autonomous, highly specialized computing modules. Inspired by his work, while planning a minimalist luxury collection of garden furniture, we focused on designing modules that you can freely combine.

Type	Length [cm]	Height [cm]	Width [cm]
Corner module	83	63	83
Middle module	75	63	83
Armchair	91	63	83
Ottomana	75	26	75

**MARCONI  
COLLECTION**  
INNOVATIVE DESIGN

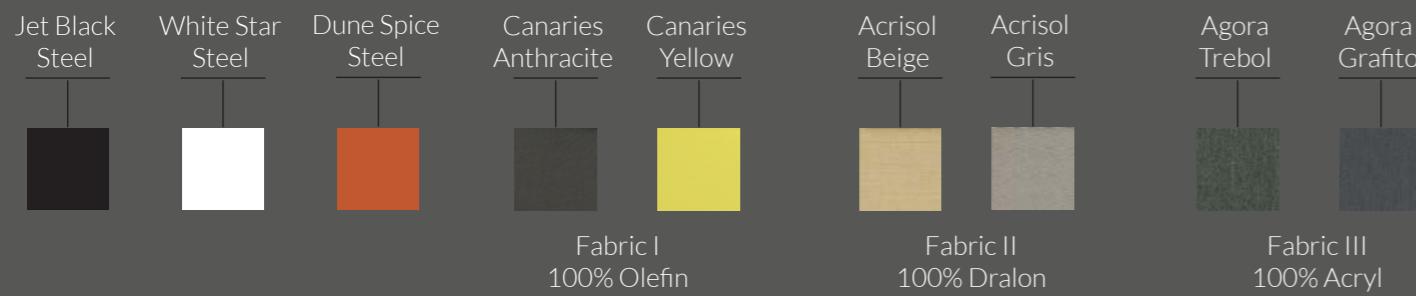

The expansive, geometric Marconi armchair was made of minimalist, fully recycled steel profiles. The elegant, light line and deep, ergonomically profiled seat together with the thick backrest allow for pleasant relaxation. The collection is complemented by steel tables that can be combined like a honeycomb. The collection is available in many color versions.

## IN & OUTDOOR MARCONI

It was inspired by the works of a visionary who delighted the world, Guglielmo Marconi, a Nobel Prize winner for his contribution to the development of wireless telegraphy.

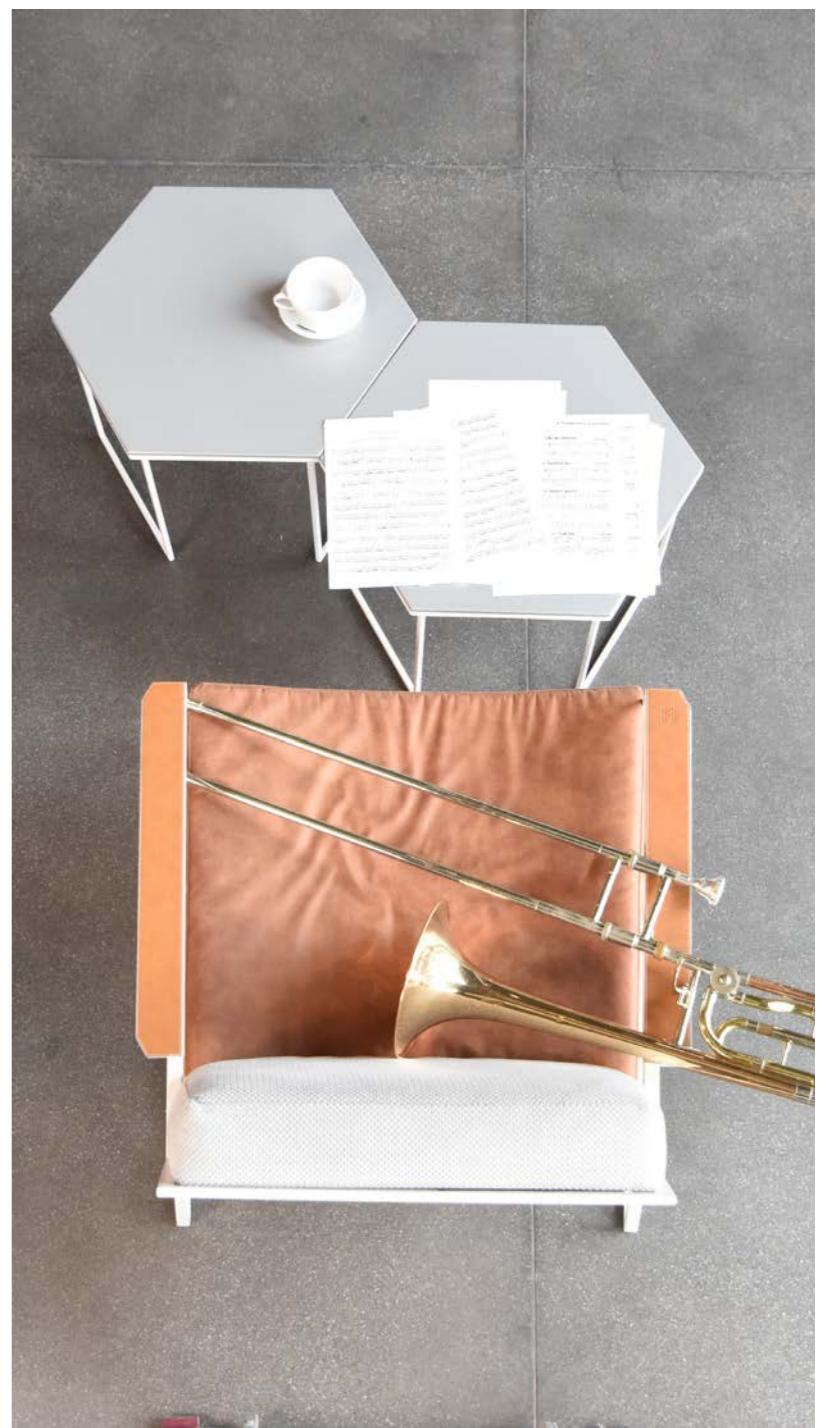

The invention of wireless telegraphy was brilliant in its simplicity, it derives from today's GSM cellular network in the form of interconnected hexagons. This pattern has become an inspiration for the entire collection, which captivates with geometric simplicity, comfort, elegance and innovative design.

Type	Length [cm]	Height [cm]	Width [cm]
Armchair	80	70	83
Coffee table	60	40	52

ULAM  
COLLECTION  
WEATHER RESISTANT

The table is a piece of furniture that lives together with its inhabitants: it is used for eating, meeting, celebrating meals, playing and talking. It is the place where memories are created, as beautiful as natural wood combined in a simple, elegant aluminium frame. The Ulam collection is an in & out door furniture, which will prove excellent both in the dining room and in the garden, where it will serve for years.

# IN & OUTDOOR ULAM

Stanisław Marcin Ulam - one of the best known Polish mathematicians, co-creator of the thermonuclear bomb. His outstanding abilities and fascination with the perfect numbers inspired us to design an ideal collection of garden furniture, there is no place for compromise, every detail has been maximized.

Type	Length [cm]	Height [cm]	Width [cm]
Table	160   180   200	74	80   90   100
Bench	160   180   200	81	52

## FO COLLECTION

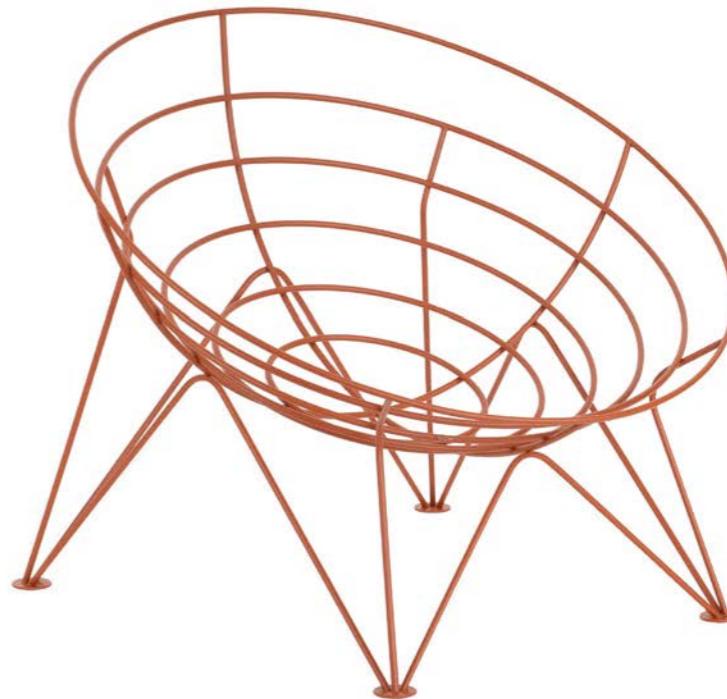

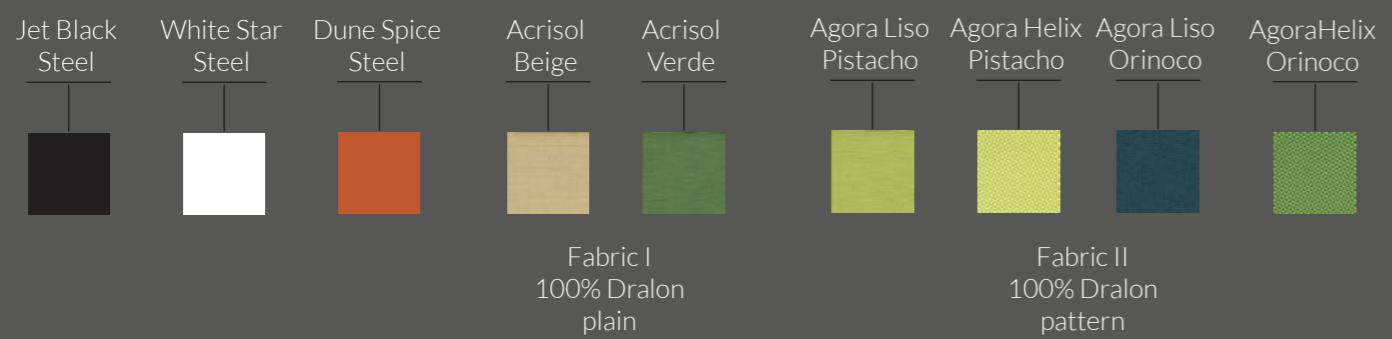

CONVENIENCE IN THE GARDEN

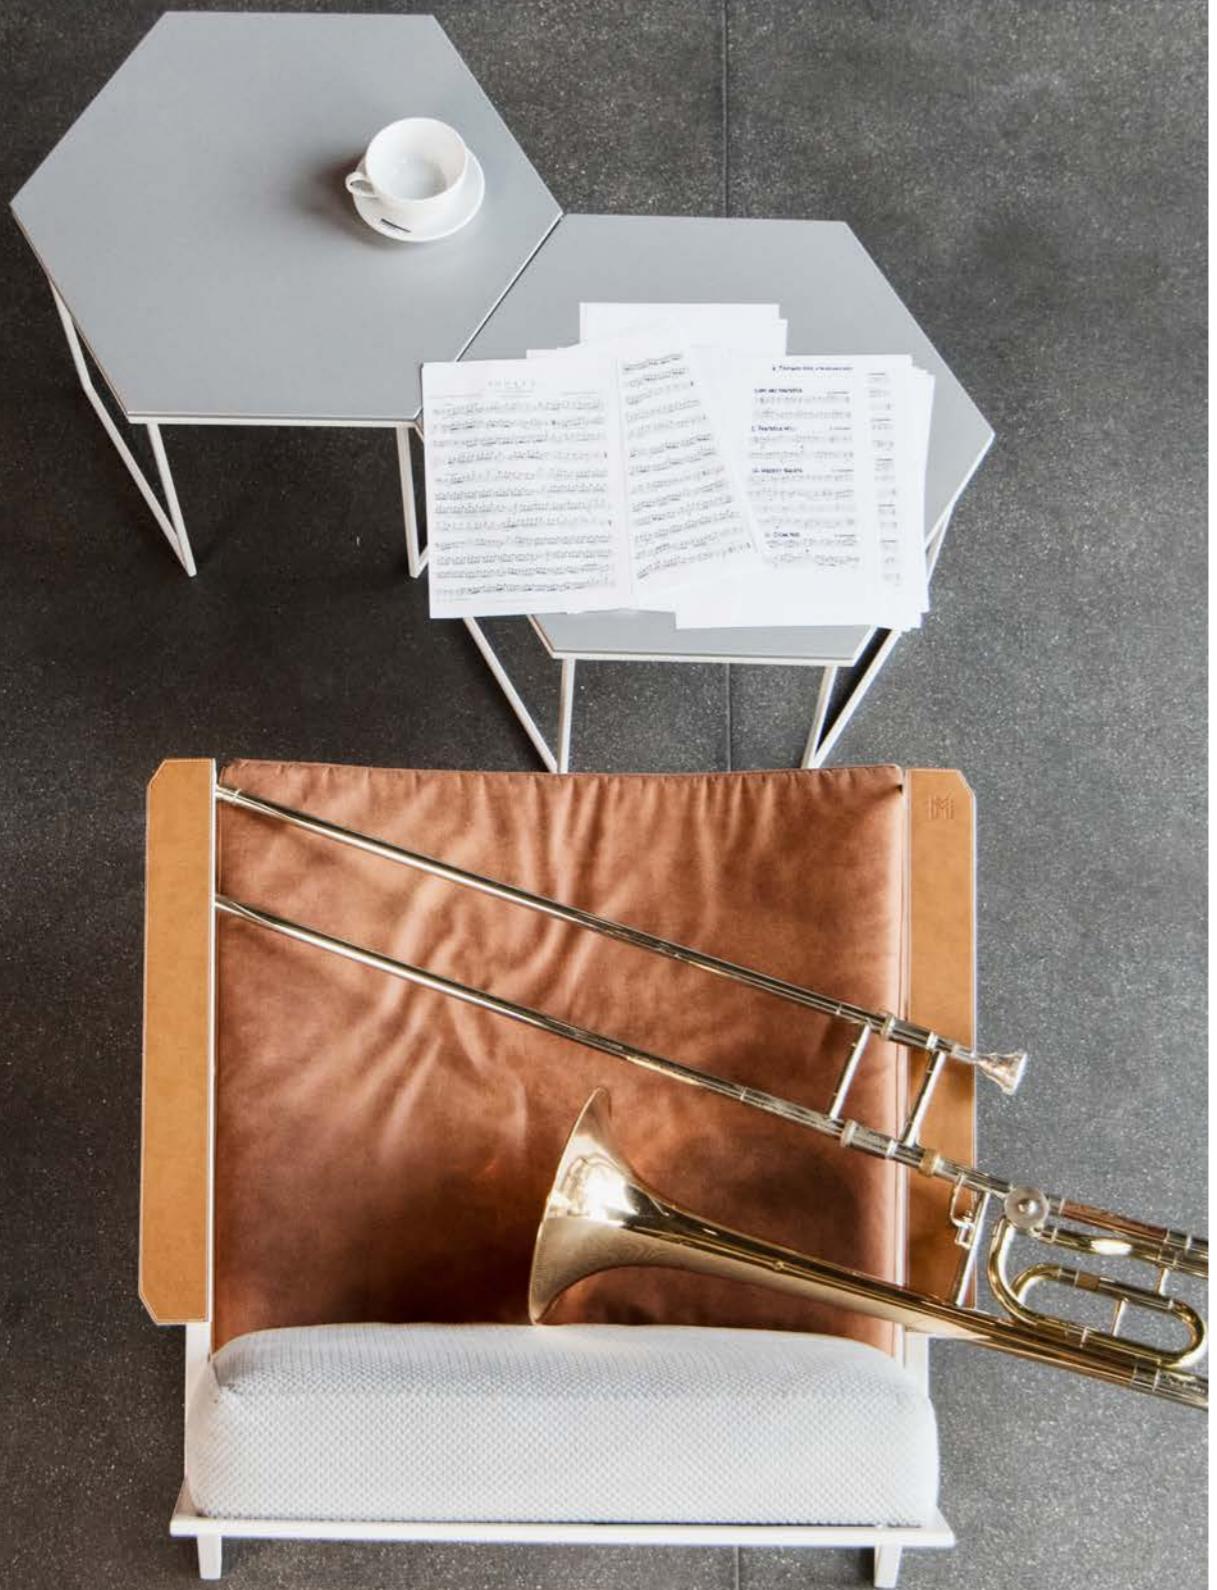

The ergonomic and ultra-comfortable Fo collection will fit perfectly into long summer evenings spent with family and friends in the garden. Light, openwork and at the same time durable construction equipped with a multi-layer cushion creates a pleasant and comfortable armchair in which you want to spend long hours.

# IN & OUTDOOR FO

The bucket seat uses steel, zinc-coated circles surrounded by a soft, collapsing cushion. Comfortable and at the same time effective furniture Fo surprises with a light form and comfort of rest.
